

## Award-winning SDC review articles

### Recipients of the SDC Centenary Medal since 1983

|           |                                    |  |
|-----------|------------------------------------|--|
| 1983-84   | J Park and J Shore                 | Evaluation, testing and dispensing of dyes ( <a href="#">link</a> )  |
| 1984-85   | A Samuels                          | Aspects of management ( <a href="#">link</a> )   |
| 1985-86   | J Groot Wassink                    | Transport phenomena in textile finishing equipment ( <a href="#">link</a> )  |
| 1986-87   | H H Sumner                         | Development of equation to determine affinity (3 parts) ( <a href="#">link</a> )   |
| 1987-88   | W S Hickman                        | Experiment! ( <a href="#">link</a> )   |
| 1988-89   | J G Roberts                        | Improved energy efficiency: A case study ( <a href="#">link</a> )  |
| 1989-90   | S J Hobbs                          | Acquisition and use of data for assessment of the environmental impact of colorants ( <a href="#">link</a> )                           |
| 1990-91   | B Glover                           | Making the product fit for the job ( <a href="#">link</a> )  |
| 1991-92   | J F Dawson                         | Azobenzene disperse dyes: Past developments and future prospects ( <a href="#">link</a> )  |
| 1992-93   | R McDonald                         | Keith McLaren: Colourist and communicator ( <a href="#">link</a> )   |
| 1993-94   | J F Gaunt                          | History of yarn dyeing machinery (2 parts) ( <a href="#">link to part 1</a> )  |
| 1994-95   | T L Dawson, H Ellis                | Will ink jets ever replace screens for textile printing? ( <a href="#">link</a> )  |
| 1995-96   | J N Ethers                         | Linear exhaustion versus migration ( <a href="#">link</a> )  |
| 1996-97   | C Diaper, V M Correia and S J Judd | The use of membranes for the recycling of water and chemicals from dyehouse effluents: an economic assessment ( <a href="#">link</a> ) |
| 1998-99   | A Kazlauciusas                     | Image capture and hard-copy reproduction ( <a href="#">link</a> )  |
| 1999-2000 | Helen Skelton                      | A colour chemist's history of Western art ( <a href="#">link</a> )   |
| 2000-2001 | Kenneth Skelly                     | Water recycling ( <a href="#">link</a> )   |
| 2001-2002 | John Oakes                         | Photofading of textile dyes ( <a href="#">link</a> )   |
| 2002-2003 | M Ronnier Luo                      | Development of colour-difference formulae ( <a href="#">link</a> )   |
| 2003-2004 | David H Titterton                  | Dye lasers: a non-colour use of dyes ( <a href="#">link</a> )  |
| 2004      | Mark Wainwright                    | Photodynamic therapy ( <a href="#">link</a> )  |
| 2005      | K Brederbeck, F Hermanutz          | Man-made cellulose ( <a href="#">link</a> )  |
| 2006      | Ian Holme                          | Sir William Henry Perkin: a review of his life, work and legacy ( <a href="#">link</a> )   |
| 2007      | Keith R Millington                 | Photoyellowing of wool (2 parts) ( <a href="#">link to part 1</a> )  |
| 2008      | Tim L Dawson                       | Nanomaterials for textile processing and photonic applications ( <a href="#">link</a> )  |

[VIEW THIS ARTICLE FOR FREE ONLINE](#)

All articles published in SDC journals; prior to 2006, in *Review of Progress in Coloration* and, from then on, in *Coloration Technology*. All SDC members are eligible to free access to review articles and, after perusing the abstracts within the journal archive (via the links above), please contact us with a request. Articles will be sent to you as PDF files (email: [editorial@sdc.org.uk](mailto:editorial@sdc.org.uk)). A full list of review articles published by the SDC since 1981 is available in the downloads section of: [www.sdc.org.uk](http://www.sdc.org.uk)
